

- Multi-purpose industrial fittings - Ideal for application in workshops, warehouses, sheds & factories, with optional smart controls & emergency function
- Ingress & impact resistant - Progressive, modular light-engine design featuring European, long-life SMDs
- CE, RoHS, CB, ELT, & DLC international product marks
- The most competitive, high-end solution for projects worldwide

## *Forsyth 2 Series*

# *Multi-Purpose High Bays & Floodlights*

CDN:SPEC152REV4

## Technical Specifications Summary

### Performance Summary:

| Code (Series-Wattage/Size)                   | FOR2-100                            | FOR2-150 | FOR2-200 | FOR2-300 | FOR2-450 |
|--|-------------------------------------|----------|----------|----------|----------|
| Nominal Power                                | 100W                                | 150W     | 200W     | 300W     | 450W     |
| Luminaire Efficacy @ CRI>70, 4000K/5000K CCT | 140lm/W                             | 140lm/W  | 140lm/W  | 140lm/W  | 140lm/W  |
| Lumen Output @ CRI>70, 4000K/5000K CCT       | 14,000lm                            | 21,000lm | 28,000lm | 42,000lm | 63,000lm |
| Lumen Maintenance (TM21 Calculated)          | L80B10 ≥82,000 hours @ 25°C Ambient |          |          |          |          |
| Certification                                | CE, RoHS, CB, ELT, DLC              |          |          |          |          |
| Product Warranty                             | 5 Years                             |          |          |          |          |

### Light Source and Photometric Parameters:

|                                   |  |
|-----------------------------------|--|
| Chip Brand, Model, & Size         | Philips Lumileds                             |
| Chip Efficacy @ CRI>70, 5000K CCT | 169lm/W @ 122mA, 25°C                        |
| Light Emission                    | Direct                                       |
| CCT                               | 5000K, (3000K, 4000K, 6000K)                 |
| CRI                               | ≥70Ra, (≥80Ra optional)                      |
| SDCM                              | ≤5   |
| Diffusers                         | Clear  |
| Symmetric Light Distribution      | 90°, 110° (Standard), 150°                   |
| Asymmetric Light Distribution     | A1 (30°x100°), A2 (60°x100°), 1S, 2S, 2M, 4S |

### Electrical Parameters:

| System Operating Power   | 100W  | 150W      | 200W      | 300W      | 450W      |
|--|---|-----------|-----------|-----------|-----------|
| Driver Brand   | Meanwell (Inventronics DALI-dimming optional)   |           |           |           |           |
| Driver Model   | HLG-150   | HLG-150   | HLG-240   | HLG-150   | HLG-150   |
| Typical Driver Lifetime (Case Temp.)                                     | 100,000 hours @Tc 25°C   50,000 hours @Tc 80°C  |           |           |           |           |
| Typical Driver Lifetime  | 100,000 hours @25°C Ambient   80,000 hours @70°C Ambient   43,000 hours @80°C Ambient |           |           |           |           |
| Input Voltage  | 220-240VAC  |           |           |           |           |
| Input Frequency  | 50-60Hz   |           |           |           |           |
| Qty of Drivers per Light   | 1   | 1         | 1         | 2         | 3         |
| Inrush Current Per Driver @ 230VAC measured at 50% Ipeak (Peak/Duration) | 65A/425µs   | 65A/445µs | 75A/570µs | 75A/570µs | 75A/570µs |
| Recommended Lights per Circuit (16A Type C MCB)                          | 7   | 7         | 4         | 2         | 1         |
| Power Factor   | >0.95   |           |           |           |           |
| THD  | <15% (220-240VAC)   |           |           |           |           |
| Insulation Class   | Class I   |           |           |           |           |
| Surge Protection/Fusing  | 2kV line-line, 4kV line-earth   |           |           |           |           |

### Environmental Parameters:

|                                       |   |
|---------------------------------------|---|
| IP Rating                             | IP66  |
| IK Rating                             | IK10  |
| Ambient Usage Tolerance               | -30°C to 45°C                                       |
| Ambient Storage Tolerance             | -40°C to 80°C                                       |
| Driver automatic turn-off temperature | 90°C Tc - Driver Powers OFF to protect the LED Load |
| Ambient Humidity Tolerance            | 15% to 95% RH                                       |

## Technical Specifications Summary

| Code (Series-Wattage/Size)                     | FOR2-100  | FOR2-150        | FOR2-200        | FOR2-300        | FOR2-450         |
|--|---|-----------------|-----------------|-----------------|------------------|

| <b>Qty of Modules</b>                          | 2   | 3               | 4               | 6               | 9                |
| <b>Electrical Connection</b>                   | 1000mm 3-Core Cable   |                 |                 |                 |                  |
| <b>Fixture Weight<sup>2</sup></b>              | 6.4kg   | 7.7kg           | 9.1kg           | 14.9kg          | 21.0kg           |
| <b>Fixture Primary Material(s)</b>             | Aluminium Alloy and Stainless Steel Fixings   |                 |                 |                 |                  |
| <b>Fixture Finish</b>                          | Painted   |                 |                 |                 |                  |
| <b>Lens(es) Materials</b>                      | UV Stabilised Polycarbonate   |                 |                 |                 |                  |
| <b>Dimming/Controls Parameters:</b>            |   |                 |                 |                 |                  |
| <b>Dimming Options</b>                         | 1-10V, DALI   |                 |                 |                 |                  |
| <b>Built-In Controls</b>                       | Photocell, PIR Sensor   |                 |                 |                 |                  |
| <b>Compatible intelligent lighting systems</b> | Wireless Controls and Monitoring, Photocell   |                 |                 |                 |                  |
| <b>Options/Accessories:</b>                    |   |                 |                 |                 |                  |
| <b>Mounting Styles</b>                         | Universal Bracket (optional 180° rotation), Slip Fit, Twin Surface Mount Brackets, Eye Bolt, Twin Eye Bolts, Wall Mount |                 |                 |                 |                  |
| <b>Miscellaneous Accessories</b>               | Wire Grill, Corrosion Resistant Finish, IP68 13A In-Line Connector, Photocell, PIR Sensor, Microwave Sensor             |                 |                 |                 |                  |
| <b>Available Product Colours</b>               | Black (RAL 9011), Grey (RAL 7045)   |                 |                 |                 |                  |

<sup>1</sup> Electrical Parameter data is for D1 drivers, unless otherwise stated

<sup>2</sup> Excludes bracketry. Refer to the Packaging Weights & Dimensions data sheet for bracketry and accessory weights

All stated values should be considered indicative only. Technical data is provided from sample luminaires and construction components as assessed by OEM(s) under industry-standard, laboratory conditions. In practice, stated values can vary. Kellwood Lighting operates a policy of continual product improvement. Our luminaires' capabilities are regularly enhanced to outperform in-class market alternatives. Please contact our technical team directly for clarifications prior to purchase. All images depicted should be considered indicative only. Stated product warranty periods do not include associated labour costs. Stated product warranty periods are for UK projects only. For international projects, please contact our offices directly. Optional upgrades can often affect or supersede unit technical parameters, capabilities, and warranties. It is the responsibility of the purchasing authority to ensure selected hardware is suitable for application. For further documentation, including Returns Policy and Conditions of Unit Failure, please contact our offices. Hazardous area documentation (eg. ATEX) are issued to OEM codes. WEEE compliance reference code: WEE/MP3838PR/SCH. Please do not look directly at LED lighting products during operation.

This datasheet & corresponding certification should be reviewed by a competent person to ensure project suitability.

## Features Summary

### **Multiple Mounting Options**

Universal bracket, universal bracket with 360° rotation, slip fit, twin surface mount brackets, eye bolt, twin eye bolts and wall mount available

### **Standalone Integrated Controls**

Occupancy, multi-step dimming, & daylight harvesting systems available - Refer to series ordering codes for options

### **Flexible Optics**

Racking-specific, open-area, street lighting & floodlight dispersion patterns available

### **IP68 Barrel Connector**

Temperature-resistant, 13A, TUV-rated, ingress-resistant connector with optional length of three core flex

### **Thermal Specialist**

Product application in high ambient temperatures possible through chassis & heat sink upgrades - See Parker Series

### **Stainless Steel Components**

Exposed metal fixtures are fabricated from 304 stainless steel

### **WAGO Connectors**

Internal connections use premium WAGO connectors for reliability

### **Safety Wire & Carabiner**

Additional safety-feature

### **Fitting Colouration**

Fittings supplied with grey surface finish as standard. Black and other custom colours available subject to MOQs (typically >100 units)

### **Integrated Photocell**

Integrated dusk-til-dawn photocells available for high mast and flood lighting applications

### **DALI / 1-10V**

Intelligent operation compatibility - dimming, photocells, occupancy...

Please note - images shown are intended to be illustrative only. For exact data, please refer to specific product photometry, available for download from our website.

# Indicative Product Photometry

90° Optic

110° Optic

150° Optic

A1 Optic

A2 Optic

IESNA Type 1S

IESNA Type 2S

IESNA Type 4S

Diffusers

IESNA Type 2M

This series is available with the following diffusers. Each diffuser will have a varying effect on photometric distribution and intensity. Please refer to downloadable photometrics for exact data.

Clear Optic (Various Beam Angles)

Colourations on isolux diagrams are qualitative, i.e. the same colour on any two isolux diagrams will not necessarily have the same lux value.

Standard product code fields are presented as:  
Further customisation may be available - please contact us if required

<sup>1</sup> Universal Bracket (mounting code "UB") has restricted rotations when mounted on a solid surface: 100W = ±60°, 150W = ±45°, and 200W = ±20°. 300W, and 450W not available with UB mount. Specify the Extended Universal Bracket (mounting code "UE") to allow for unrestricted rotation, e.g. wall mounting while facing directly at the ground.

**GENERAL NOTES:**

- IF MORE THAN ONE MODIFICATION IS REQUIRED, SEPARATE EACH MODIFICATION WITH A HYPHEN AT THE END OF THE PRODUCT CODE
- PLEASE ENSURE SELECTION OF COMPATIBLE DRIVER FOR OCCUPANCY SENSORS WITH DIMMING FUNCTIONALITY
- PLEASE NOTE THAT MODIFICATIONS WHICH AFFECT LIGHT OUTPUT HAVE SEPARATE PHOTOMETRIC FILES IDENTIFIED WITH "...+(MODIFICATION)"
- ALTERNATIVE DRIVERS MAY BE AVAILABLE - PLEASE CONTACT OUR OFFICE FOR FURTHER DETAILS
- IF PRODUCT IS CUSTOMISED, CODES WILL BE ALTERED AS NECESSARY
